“Numerics” Vs. “Numerology”

Numeric(adjective): Denoting a number or a system of numbers
(noun): Number or numeral

Numerology(noun): the study of the occult significance of numbers

Why?

God is concerned with numbers

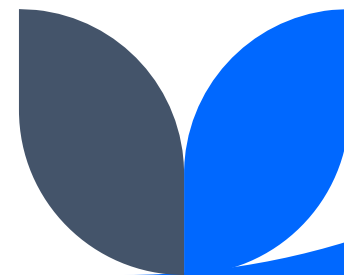

Gen 13:16

God numbers things

Num 1:1-4

God distinguishes His numbering vs. Man's numbering

1Chr 21; Exo 30:11-16

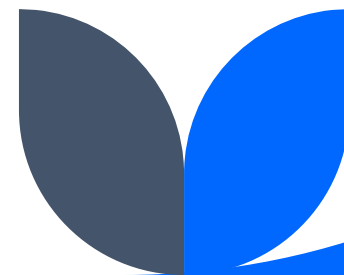

Why?

Observation of consistent patterns of numbers / system of numbers point clearly to the supernatural aspect of God's supernatural book!

These observations are peculiar, because it seems very improbable that finite man could have made this happen in ONE book written by ~40 authors of different vocations, over ~1600 years on multiple continents!
